

HCIA-Access V2.5 Exam Outline

Huawei HCIA-Access V2.5 Certification Exam

Certification	Exam Code	Exam Name	Language	Exam Format	Exam Cost		Pass Score/ Total Score
HCIA-Access	H35-210	HCIA-Access V2.5	ENU/CHS	Single answer, Multiple answer, True-false question, Short Response Item, Drag and drop item	200 USD	90 mins	600/1000

Exam Contents

The HCIA-Access V2.5 exam covers:

- Access Network Overview
- Network Communication Principles
- xPON & xDSL Principles
- PPPoE&DHCP&VLAN Principles
- Data service basics& Data Service Configuration
- ODN Engineering Implementation and Maintenance & Network Management Basics.

Key Points Percentage

Key Points	Percentage
1. Access Network Overview	3%
2. Network Communication Basics	18%
3. xPON and xDSL Principles	27%
4. Service Implementation Basics	21%
5. Data Service Implementation	16%
6. ODN Basics	10%
7. NMS Basics	5%

Knowledge Points

1 Access Network Overview

2022-02-24 Page 1 Total 5

- 1.1 Evolution and Application of Wired Communication Access Technologies
- 2 Network Communication Basics
- 2.1 Network Communication Basics
- 2.2 VLAN Principles
- 2.3 Routing Basics
- 3 xPON and xDSL Principles
- 3.1 PON System Overview
- 3.2 GPON &10G GPON Principles
- 3.3 xDSL & Vectoring & G.fast Principles and Applications
- 4 Service Implementation Basics
- 4.1 PPP and PPPoE Principles
- 4.2 DHCP Principle
- 4.3 ONU Service Interfaces
- 4.4 VLAN and Service Flow of Access Network
- 5 Data service implementation
- 5.1 GPON OLT Basic Operations
- 5.2 GPON ONU Basic Operations
- 5.3 GPON Data Service Configuration
- 6 ODN Basics
- 6.1 ODN Engineering Implementation and Maintenance
- 7 NMS Basics
- 7.1 Network Management Basics

M NOTE

The content mentioned in this document is a general exam guide only. The exam may also contain more specific or related content that is not mentioned above.
